

INSPECTION

Inspection of Herbicide Projects for White River and Nagagami Forests

The Ontario **Ministry of Natural Resources (MNR)** invites you to inspect the planned herbicide projects for the 2024 season. As part of our ongoing efforts to regenerate and protect Ontario's forests, selected stands on the **White River and Nagagami Forests** (see map) will be sprayed with herbicide to control competing vegetation, starting on or about **August 5, 2024** for the **Nagagami Forest** and **August 18, 2024** for the **White River Forest**.

The project description and project plan for the herbicide projects are available electronically for public inspection by contacting the offices of the Forest Companies listed below, during normal business hours and on the Natural Resources Information Portal at <https://nrip.mnr.gov.on.ca/s/fmp-online> beginning **July 5, 2024** until **March 31, 2025** when the Annual Work Schedule expires.

First Nation and Métis communities and interested and affected persons and organizations can arrange a remote meeting with MNR staff to discuss the herbicide projects. For more information, please contact:

White River Forest
