

Inspection

Inspection of MNR-Approved Prescribed Burn Plan for White River Forest

The Ontario **Ministry of Natural Resources (MNR)** invites you to inspect the MNR-approved prescribed burn plan that will be carried out in the **White River Forest** (see map).

As part of our ongoing efforts to regenerate and protect Ontario's forests, some recently harvested areas have been selected to be burned under the guidelines of the MNR's *Prescribed Burn Manual*. The prescribed burn will prepare and enhance the site(s) for subsequent regeneration and growth. The burn is scheduled for ignition between **May 1, 2025**, and **October 31, 2025**.

The approved prescribed burn plan, including specific locations and maps, is available for inspection by contacting Nawiinginiima Forest Management Corporation and on the Natural Resources Information Portal at

https://nrip.mnr.gov.on.ca/s/published-submission?language=en_US&recordId=a0zOM000000zM3eYAE until **March 31, 2026**, when the Annual Work Schedule expires. The burn location is east of Highway 631 near Beaton Lake, roughly halfway between White River and Hornepayne.

Interested and affected persons and organizations can arrange a virtual meeting with MNR staff to discuss the prescribed burn plan. For more information, please contact:

Dawson Meecham, Associate R.P.F.
